

Emergency Financial Aid Grants to Students Fund Reporting

CARES Act Funding

On March 27, 2020, the President of the United States signed the CARES Act (H.R. 748), which provided emergency relief funds to organizations and individuals affected by the coronavirus pandemic. The Higher Education Emergency Relief Fund (HEERF), found in Section 18004 of the CARES Act, provided funding to institutions of higher education “to prevent, prepare for, and respond to coronavirus.” This report provides details on the awards Abilene Christian University received under the HEERF, the funds for Emergency Financial Aid Grants to Students under Award No. P425E20006 as well as funding provided under the American Rescue Plan Act, 2021 section (a)(1) and (a)(4).

METHOD USED TO DETERMINE STUDENTS ELIGIBILITY

All potentially eligible students were notified of the application process developed by the university for these funds by an email correspondence from President Schubert. A committee reviewed the individual application requests as they were received and recommended distributions of this money to newly approved students on a weekly basis. Hundreds of ACU students experienced some financial relief

due to qualifying for these funds.

The U.S. Department of Education has specified that students must meet certain criteria to qualify for the CARES Act funds. These include:

- Must be federal Title IV aid eligible, which has been determined by student's having a complete valid 2019-2020 or 2020-2021 Free Application for Federal Student Aid (FAFSA) on file
- Must meet Title IV aid eligibility criteria including
 - U.S. Citizenship or Eligible noncitizen status

 - Be registered with Selective Service (if male)
 - Be meeting Satisfactory Academic Progress standards for Title IV aid
- Students must have been enrolled and been in attendance at ACU
- Students must not have already been attending ACU via an online academic program

Maximum eligibility tiers were established by the university based upon various student situational experiences. The highest of which was set just below the maximum Pell Grant eligibility figure, as recommended by the U.S. Department of Education. The committee reviewed requests and determined student's qualifying amounts based upon their amounts requested to cover their current financial needs with respect to the established tier maximums. A follow-up questionnaire was sent to students whose initial application was unclear about their short-term financial needs. Awards were focused on the six financial categories encouraged by the federal government. These include funding to help students pay for housing, food, childcare, healthcare, technology and course materials. Distributions to students ranged between \$100 - \$6,000.
